Performance Highlights as of the Third Quarter of 2017

- **Significant Production Growth** – We increased our production approximately 54% as of the end of the third quarter of 2017 as compared to the first three quarters of 2016, despite some weather related issues and delays.
- **Poised for Steady, Sustained Reserve and Production Growth** – We drilled 33 wells as of September 30, 2017, which included 28 horizontal wells and 5 vertical wells on our Central Basin Platform and Delaware Basin acreage, of which 8 wells need to be completed. With the completion of wells not yet completed and our drilling inventory, we are poised for steady, sustained reserve and production growth.

Performance Highlights for 2016

- **Significant Production Growth** – We created significant production growth in 2016, despite lower and more volatile commodity prices. Our production increased approximately 18% to 878,066 BOE in 2016, as compared to production of 743,363 BOE for the year ended December 31, 2015.
 - **Reserve Growth** – We increased our proved reserves 14% to 27.7 million BOE. As of December 31, 2016, our estimated proved reserves had a pre-tax “PV10” (present value of future net revenues before income taxes discounted at 10%) of approximately \$217.3 million and a Standardized Measure of Discounted Future Net Cash Flows of approximately \$159.8 million.
 - **Improved Production Curves and Increase in Proved Undeveloped Reserves** – Our PUD reserve estimate increased to 17.5 million BOE in 2016 from 15.8 million BOE in 2015, resulting from development, improved production curves and improved recovery and extension from the addition of new horizontal reserves proved up through development.
 - **Improved Operational Efficiency** – We improved our operational efficiency through employing technological advancements, which have provided a significant benefit in our continuous drilling program in the lower commodity price environment. As of result of our improved operational efficiency, as of December 31, 2016, we had drilled 195 wells, with 192 being vertical wells and 3 horizontal wells, and re-stimulated 35 existing wells on our Central Basin acreage and had drilled 6 wells and recompleted 6 existing wells on our Delaware Basin acreage. Our aggregate oil and gas production costs decreased on a BOE basis to \$11.24 in 2016 from \$13.40 in 2015.
-

- ***Additional Financial Flexibility for Future Growth and Development***– We increased our financial flexibility for future growth and development by paying down our credit facility and successfully raising additional capital in an underwritten public offering. We have a credit facility in place with a \$60 million borrowing base for borrowings, and, as of December 31, 2016, we had paid all amounts outstanding on our credit facility. We successfully raised \$139.6 million in underwritten public offerings in 2016. Our credit facility and capital raise provide us with additional operating flexibility.

PROXY STATEMENT

FOR

THE 2017 ANNUAL MEETING OF STOCKHOLDERS

This proxy statement is furnished in connection with the solicitation by the Board of Directors (the "**Board**") of Ring Energy, Inc. of proxies for use at its 2017 Annual Meeting of Stockholders to be held at the Hilton Garden Inn Midland, 1301 North Loop #250 West, Midland, TX 79706, on December 12, 2017, at 10:00 a.m., or any adjournment or postponement thereof (the "**Annual Meeting**"), for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders (the "**Notice**").

Unless the context requires otherwise, references in this proxy statement to "Ring," the "Company," "we," "us" and "our" are to Ring Energy, Inc., a Nevada corporation, and its consolidated subsidiaries. Unless the context otherwise requires, references to the "stockholders" are to the holders of shares of our common stock, par value \$0.001 per share ("**Common Stock**").

This proxy statement and accompanying form of proxy are being mailed to our stockholders on or about November 23, 2017. Our Annual Report on Form 10-K (the "**Annual Report**") covering the year ended December 31, 2016 and our Quarterly Report on Form 10-Q covering the period ended September 30, 2017, are enclosed, but do not form any part of the materials for solicitation of proxies.

QUESTIONS AND ANSWERS ABOUT THE ANNUAL MEETING

What is the purpose of the Annual Meeting?

At the Annual Meeting, our stockholders will act upon the matters outlined in the Notice, including (1) the election of six directors to our Board, each for a term ending on the date of the 2018 Annual Meeting of Stockholders (this proposal is referred to as the "**Election of Directors**"); (2) a non-binding, advisory vote to approve Named Executive Officer compensation (this proposal is referred to as "**Executive Compensation**"); (3) the ratification of the appointment of Eide Bailly LLP as our independent registered public accounting firm for the fiscal year ended December 31, 2017 (this proposal is referred to as the "**Ratification of Eide Bailly**"); and (4) the transaction of such other business as may arise that can properly be conducted at the Annual Meeting or any adjournment or postponement thereof. Also, management will report on our performance during the last fiscal year and respond to questions from our stockholders.

What is a proxy?

A proxy is another person that you legally designate to vote your stock. If you designate a person or entity as your proxy in a written document, that document is also called a proxy or a proxy card.

What is a proxy statement?

It is a document that regulations of the Securities and Exchange Commission (the "**SEC**") require that we give to you when we ask you to sign a proxy card to vote your stock at the Annual Meeting.

What is “householding” and how does it affect me?

One copy of the Notice, this proxy statement and the Annual Report (collectively, the “*Proxy Materials*”) will be sent to stockholders who share an address, unless they have notified us that they want to continue receiving multiple packages. This practice, known as “householding,” is designed to reduce duplicate mailings and save significant printing and postage costs. If you received a householded mailing this year and you would like to have additional copies of the Proxy Materials mailed to you or you would like to opt out of this practice for future mailings, we will promptly deliver such additional copies to you if you submit your request in writing to Ring Energy, Inc., Attention: William R. Broaddrick, Chief Financial Officer, 6555 Lewis Ave., Suite 200, Tulsa, OK, 74136 or by telephone at (918) 499-3880. You may also contact us in the same manner if you received multiple copies of the Proxy Materials and would prefer to receive a single copy in the future. The Proxy Materials are also available on our website: www.ringenergy.com.

What should I do if I receive more than one set of voting materials?

Despite our efforts related to householding, you may receive more than one set of Proxy Materials, including multiple copies of the proxy statement and multiple proxy cards or voting instruction cards. For example, if you hold your shares in more than one brokerage account, you will receive a separate voting instruction card for each brokerage account in which you hold shares. Similarly, if you are a stockholder of record and hold shares in a brokerage account, you will receive a proxy card and a voting instruction card. Please complete, sign, date and return each proxy card and voting instruction card that you receive to ensure that all your shares are voted at the Annual Meeting.

What is the record date and what does it mean?

The record date for the determination of stockholders entitled to notice of and to vote at the Annual Meeting is the close of business on November 17, 2017 (the “*Record Date*”). The Record Date is established by our Board as required by Nevada law.

What is a quorum?

A quorum is the presence at the Annual Meeting, in person or by proxy, of the holders of at least one-third of the shares of our Common Stock outstanding and entitled to vote as of the Record Date. There must be a quorum for the Annual Meeting to be held. If a quorum is not present, the Annual Meeting may be adjourned until a quorum is reached. Proxies received but marked as abstentions or broker non-votes will be included in the calculation of votes considered to be present at the Annual Meeting.

Who is entitled to vote at the Annual Meeting?

Subject to the limitations set forth below, stockholders at the close of business on the Record Date may vote at the Annual Meeting.

What are the voting rights of the stockholders?

Each holder of Common Stock is entitled to one vote per share of Common Stock on all matters to be acted upon at the Annual Meeting. Neither our Articles of Incorporation, as amended, nor our Bylaws allow for cumulative voting rights.

What is the difference between a stockholder of record and a “street name” holder?

Most stockholders hold their shares through a broker, bank or other nominee rather than directly in their own name. As summarized below, there are some distinctions between shares held of record and those owned in street name.

· *Stockholder of Record.* If your shares are registered directly in your name with Standard Registrar and Transfer Company Inc., our transfer agent, you are considered, with respect to those shares, the stockholder of record. As the stockholder of record, you have the right to grant your voting proxy directly or to vote in person at the Annual Meeting.

- *Street Name Stockholder.* If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of shares held in “street name.” As the beneficial owner, you have the right to direct your broker or nominee how to vote and are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote these shares in person at the Annual Meeting unless you obtain a signed proxy from the record holder giving you the right to vote the shares.

How do I vote my shares?

Stockholders of Record: Stockholders of record may vote their shares or submit a proxy to have their shares voted by one of the following methods:

- *By Mail.* You may indicate your vote by completing, signing and dating your proxy card and returning it in the enclosed reply envelope.
- *In Person.* You may vote in person at the Annual Meeting by completing a ballot; however, attending the Annual Meeting without completing a ballot will not count as a vote.

Street Name Stockholders: Street name stockholders may generally vote their shares or submit a proxy to have their shares voted by one of the following methods:

- *By Mail.* You may indicate your vote by completing, signing and dating your proxy card or other information forwarded by your bank, broker or other holder of record and returning it in the enclosed reply envelope.
- *In Person with a Proxy from the Record Holder.* You may vote in person at the Annual Meeting if you obtain a legal proxy from your bank, broker or other nominee. Please consult the voting form or other information sent to you by your bank, broker or other nominee to determine how to obtain a legal proxy in order to vote in person at the Annual Meeting.

Can I revoke my proxy?

Yes. If you are a stockholder of record, you can revoke your proxy at any time before it is exercised by:

- submitting written notice of revocation to Ring Energy, Inc., Attention: William R. Broaddrick, Chief Financial Officer, 6555 Lewis Ave., Suite 200, Tulsa, OK, 74136, no later than December 11, 2017;
- submitting another proxy with new voting instructions by mail; or
- attending the Annual Meeting and voting your shares in person.

If you are a street name stockholder and you vote by proxy, you may change your vote by submitting new voting instructions to your bank, broker or nominee in accordance with that entity’s procedures.

May I vote confidentially?

Yes. We treat all stockholder meeting proxies, ballots and voting tabulations confidentially if the stockholder has requested confidentiality on the proxy or ballot.

If you so request, your proxy will not be available for examination and your vote will not be disclosed prior to the tabulation of the final vote at the Annual Meeting except (1) to meet applicable legal requirements or (2) to allow the independent election inspectors to count and certify the results of the vote. The independent election inspectors may, however, at any time inform us whether or not a stockholder has voted.

What is the effect of broker non-votes and abstentions and what vote is required to approve each proposal?

If you hold your shares in “street name,” you will receive instructions from your broker or other nominee describing how to vote your shares. If you do not instruct your broker or nominee how to vote your shares, they may vote your shares as they decide as to each matter for which they have discretionary authority under the rules of the NYSE MKT LLC (the “*NYSE MKT*”).

There are also non-discretionary matters for which brokers and other nominees do not have discretionary authority to vote unless they receive timely instructions from you. When a broker or other nominee does not have discretion to vote on a particular matter, you have not given timely instructions on how the broker or other nominee should vote your shares and the broker or other nominee indicates it does not have authority to vote such shares on its proxy, a “broker non-vote” results. Although any broker non-vote would be counted as present at the Annual Meeting for purposes of determining a quorum, it would be treated as not entitled to vote with respect to non-discretionary matters.

Abstentions occur when stockholders are present at the Annual Meeting but fail to vote or voluntarily withhold their vote for any of the matters upon which the stockholders are voting.

If your shares are held in street name and you do not give voting instructions, the record holder will not be permitted to vote your shares with respect to Proposal 1 (*Election of Directors*) or Proposal 2 (*Executive Compensation*), and your shares will be considered broker non-votes with respect to these proposals. If your shares are held in street name and you do not give voting instructions, the record holder will nevertheless be entitled to vote your shares with respect to Proposal 3 (*Ratification of Eide Bailly*) in the discretion of the record holder.

- *Proposal 1 (Election of Directors)*: To be elected, each nominee for election as a director must receive the affirmative vote of a plurality of the votes cast by the holders of our Common Stock, present in person or represented by proxy at the Annual Meeting and entitled to vote on the proposal. This means that director nominees who receive the most votes are elected. Votes may be cast in favor of or withheld from the election of each nominee. Votes that are withheld from a director’s election will be counted toward a quorum, but will not affect the outcome of the vote on the election of a director. Broker non-votes will not be counted as votes cast, and, accordingly, will have no effect on the outcome of the vote for directors.
- *Proposal 2 (Executive Compensation)*: To consider and vote upon, on a non-binding, advisory basis, a resolution to approve the compensation of the Named Executive Officers as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the compensation discussion and analysis, the compensation tables and any related material disclosed in this proxy statement. This vote is advisory, which means that the vote on executive compensation is not binding on the Company, its Board of Directors, or the Compensation Committee.
- *Proposal 3 (Ratification of Eide Bailly)*: Ratification of the appointment of Eide Bailly LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2017, requires the affirmative vote of the holders of a majority of the votes cast by the holders of our Common Stock present in person or represented by proxy at the Annual Meeting and entitled to vote thereon. Abstentions and broker non-votes will not be counted as votes either for or against this proposal, and, accordingly, will have no effect on the outcome of this proposal.

Our Board has appointed William R. Broaddrick as the management proxy holder for the Annual Meeting. If you are a stockholder of record, your shares will be voted by the management proxy holder in accordance with the instructions on the proxy card you submit by mail. For stockholders who have their shares voted by duly submitting a proxy by mail, the management proxy holder will vote all shares represented by such valid proxies as our Board recommends, unless a stockholder appropriately specifies otherwise.

Our Board recommends a vote:

- **FOR** each of the nominees for director;
- **FOR** non-binding, advisory approval of Named Executive Officer compensation; and
- **FOR** the ratification of the appointment of Eide Bailly LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2017.

What happens if additional proposals are presented at the Annual Meeting?

Other than the matters specified in the Notice, we do not expect any matters to be presented for a vote at the Annual Meeting. If you grant a proxy, the management proxy holder will have the discretion to vote your shares on any additional matters properly presented for a vote at the Annual Meeting. Under our bylaws, the deadline for notifying us of any additional proposals to be presented at the Annual Meeting has passed and, accordingly, stockholders may not present proposals at the Annual Meeting.

Who will bear the cost of soliciting votes for the Annual Meeting?

We will bear all expenses of soliciting proxies. We have engaged Broadridge Financial Solutions, Inc. to aid in the distribution of proxy materials and to provide voting and tabulation services for the Annual Meeting. Directors, officers and employees will not be additionally compensated but may be reimbursed for reasonable out-of-pocket expenses in connection with any solicitation. In addition, we may reimburse brokerage firms, custodians, nominees, fiduciaries and other persons representing beneficial owners of our Common Stock for their reasonable expenses in forwarding solicitation material to such beneficial owners.

May I propose actions for consideration at the 2018 Annual Meeting of Stockholders or nominate individuals to serve as directors?

You may submit proposals for consideration at future stockholder meetings, including director nominations. Please read “Stockholder Proposals and Director Nominations for the 2018 Annual Meeting” for information regarding the submission of stockholder proposals and director nominations for consideration at next year’s annual meeting.

PROPOSAL 1: ELECTION OF DIRECTORS

At the Annual Meeting, the stockholders will elect six directors to serve on the Board until the 2018 Annual Meeting or until their successors are duly elected and qualified. Upon the recommendation of the Nominating and Corporate Governance Committee of the Board, our Board has nominated as directors the following six individuals, each of whom is presently serving as a director.

We neither paid any third-party fees to assist in the process of identifying or evaluating candidates nor did we receive any stockholder nominations for director. Each nominee is currently a director and was previously elected to our Board by our stockholders. Messrs. Rochford and McCabe joined the Board in June 2012, and Messrs. Hoffman, Fowler, Woodrum and Petrelli joined the Board in January 2013.

Each nominee has consented to being named as a nominee in this proxy statement and has indicated a willingness to serve if elected.

Stockholders may not cumulate their votes in the election of our directors. We have no reason to believe that the nominees will be unable or unwilling to serve if elected. However, if a nominee should become unable or unwilling to serve for any reason, proxies may be voted for another person nominated as a substitute by our Board.

BOARD RECOMMENDATION ON PROPOSAL

The Board unanimously recommends a vote **FOR** the election of each of the director nominees named above. The management proxy holder will vote all properly submitted proxies **FOR** election unless properly instructed otherwise.

CORPORATE GOVERNANCE AND OUR BOARD

General

Our Board currently consists of six members. The Company's Articles of Incorporation and Bylaws provide for the annual election of directors. At each annual meeting of stockholders, our directors will be elected for a one-year term and serve until their respective successors have been elected and qualified.

Our Board held six meetings during the fiscal year ending on December 31, 2016. During the fiscal year ending on December 31, 2016, no directors attended fewer than 75% of the total number of meetings of our Board and committees on which that director served.

We encourage, but do not require, our directors to attend annual meetings of stockholders. At our last Annual Meeting of Stockholders, all serving members of our Board attended.

Board Independence

As required under the listing standards of the NYSE MKT, a majority of the members of our Board must qualify as independent, as affirmatively determined by our Board. Our Nominating and Corporate Governance Committee evaluated all relevant transactions and relationships between each director, and any of his or her family members, and our Company, senior management and independent registered accounting firm. Based on this evaluation and the recommendation of our Nominating and Corporate Governance Committee, our Board has determined that Clayton E. Woodrum, Anthony B. Petrelli, Lloyd T. Rochford, and Stanley M. McCabe are independent directors, as that term is defined in the listing standards of the NYSE MKT.

Board Committees

Our Board of Directors has established an Audit Committee, a Compensation Committee, a Nominating and Corporate Governance Committee, and an Executive Committee, the composition and responsibilities of which are briefly described below. The charters for each of these committees shall be provided to any person without charge, upon request. The charters are also available on the Company's website at www.ringenergy.com. Requests may be directed to Ring Energy, Inc., Attention: William R. Broaddrick, 6555 S. Lewis Ave., Suite 200, Tulsa, Oklahoma 74136, or by calling (918) 499-3880. The information on, or that can be accessed through our website, is not incorporated by reference into this proxy statement and should not be considered part of this proxy statement. Our Board, in its business judgment, has determined that the Compensation Committee, Audit Committee and Nominating and Corporate Governance Committee are comprised entirely of independent directors as currently required under the listing standards of the NYSE MKT and applicable rules and requirements of the SEC. The Board may also delegate certain duties and responsibilities to the committees it establishes; for example, the Board may delegate the duty of determining appropriate salaries for our executive officers from time to time.

Audit Committee

The Audit Committee's principal functions are to assist the Board in monitoring the integrity of our financial statements, the independent auditor's qualifications and independence, the performance of our independent auditors and our compliance with legal and regulatory requirements. The Audit Committee has the sole authority to retain and terminate our independent auditors and to approve the compensation paid to our independent auditors. The Audit Committee is also responsible for overseeing our internal audit function.

The Audit Committee is comprised of Messrs. Woodrum, Petrelli and McCabe, with Mr. Woodrum acting as the chairman. Our Board determined that Mr. Woodrum qualified as an "audit committee financial expert" as defined in Item 407 of Regulation S-K promulgated by the SEC. Each of Messrs. Woodrum, Petrelli and McCabe further qualified as "independent" in accordance with the applicable regulations of the NYSE MKT definition of independent director set forth in the Company Guide, Part 8, Section 803(A). The Audit Committee met four times during the fiscal year ending December 31, 2016.

Compensation Committee

The Compensation Committee's principal function is to make recommendations regarding the compensation of the Company's officers. In accordance with the rules of the NYSE MKT, the compensation of our chief executive officer is recommended by the Compensation Committee to the Board (in a proceeding in which the chief executive officer does not participate). Compensation for all other officers is also recommended to the Board for determination by the Compensation Committee. The Compensation Committee is comprised of Messrs. Rochford and McCabe, with Mr. Rochford acting as the chairman.

The Compensation Committee is delegated all authority of the Board as may be required or advisable to fulfill the purposes of the Compensation Committee. The Compensation Committee may form and delegate some or all of its authority to subcommittees when it deems appropriate. Meetings may, at the discretion of the Compensation Committee, include members of the Company's management, other members of the Board, consultants or advisors, and such other persons as the Compensation Committee or its chairperson may determine.

The Compensation Committee has the sole authority to retain, amend the engagement with, and terminate any compensation consultant to be used to assist in the evaluation of director, chief executive officer or executive officer compensation, including employment contracts and change in control provisions. The Compensation Committee has sole authority to approve the consultant's fees and other retention terms and has authority to cause the Company to pay the fees and expenses of such consultants. The Compensation Committee did not retain any compensation consultants for the fiscal year ending December 31, 2016.

Each member of the Compensation Committee during the fiscal year ending December 31, 2016, was an "outside director" as defined under section 162(m) of the Internal Revenue Code, as amended (the "*Code*") and was "independent" as defined in the applicable rules of the NYSE MKT and the SEC. The Compensation Committee held two meetings during the fiscal year ending December 31, 2016.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee's principal functions are to (a) identify and recommend qualified candidates to the Board of Directors for nomination as members of the Board and its committees, and (b) develop and recommend to the Board corporate governance principles and policies applicable to the Company. The Nominating and Corporate Governance Committee is comprised of Messrs. Rochford and McCabe, with Mr. Rochford acting as the chairman.

Each member of the Nominating and Corporate Governance Committee during the fiscal year ending December 31, 2016, was "independent" as defined in the applicable rules of the NYSE MKT and the SEC. The Nominating and Corporate Governance Committee met two times during the fiscal year ending December 31, 2016.

Director Nominations and Qualifications

Under its charter, the Nominating and Corporate Governance Committee identifies qualified candidates to serve as Board members as necessary to fill vacancies or the additional needs of the Board, and reviews and evaluates candidates recommended by stockholders of the Company. The Nominating and Corporate Governance Committee considers qualified candidates from several sources, including stockholders. The Nominating and Corporate Governance Committee may, but has not, retained an outside consultant to evaluate or assist in identifying or evaluating potential director candidates.

Any stockholders desiring to propose a nominee to the Board should submit such proposed nominee for consideration by the Nominating and Corporate Governance Committee, including the proposed nominee's qualifications, to Ring Energy, Inc., Attention: Mr. William R. Broaddrick, 6555 Lewis Ave., Suite 200, Tulsa, OK, 74136. Stockholders who meet certain requirements specified in our by-laws may also nominate candidates for inclusion in our proxy materials for an annual meeting as described in "Stockholder Proposals and Director Nominations for the 2018 Annual Meeting." There are no differences in the manner in which the Nominating and Corporate Governance Committee evaluates nominees for director based on whether the nominee is recommended by a stockholder or the incumbent directors.

Whether nominated by a stockholder or through the activities of the Nominating and Corporate Governance Committee, the Nominating and Corporate Governance Committee seeks to select candidates who have distinguished records of leadership and success in their area of activity and who will make substantial contributions to Board operations and effectively represent the interests of all stockholders.

The Nominating and Corporate Governance Committee's assessment of candidates includes, but is not limited to, consideration of: (i) roles and contributions valuable to the business community; (ii) personal qualities of leadership, character, judgment, and whether the candidate possesses and maintains throughout service on the Board a reputation in the community at large of integrity, trust, respect, competence, and adherence to the highest ethical standards; (iii) relevant knowledge and diversity of background and experience in such things as the Company's industry, and in general, business, manufacturing, technology, finance and accounting, marketing, international business, government, and the like; or (iv) whether the candidate is free of conflicts and has the time required for preparation, participation, and attendance at all meetings. A director's qualifications in light of these criteria are considered at least each time the director is re-nominated for Board membership. The Committee also evaluates whether the candidate's skills are complementary to the existing Board members' skills, the Board's needs for particular expertise in fields such as business, manufacturing, technology, financial, marketing, governmental, or other areas of expertise, and assess the candidate's impact on Board dynamics and effectiveness. The Committee selects candidates that best suit the Board's current needs and recommends one or more of such individuals to the Board. Our membership criteria and a rigorous selection process help ensure that candidates recommended to the Board will effectively represent the balanced best interests of all stockholders.

Board of Directors Diversity

The Board encourages a diversity of backgrounds among its members; however, it does not have a formal diversity policy with regard to the consideration of diversity in identifying director nominees. The Board considers candidates with significant direct or indirect energy industry experience that will provide the Board as a whole with the talents, skills, diversity and expertise to serve the long-term interests of the Company and its stockholders.

Executive Committee

The Executive Committee's principal function is to exercise the powers and duties of the Board between Board meetings and while the Board is not in session, and implement the policy decisions of the Board. The Executive Committee is comprised of Messrs. Rochford and McCabe and met five times during the fiscal year ending December 31, 2016.

Code of Ethics and Code of Business Conduct

We have adopted a Code of Ethics that applies to our Chief Executive Officer, President, and Chief Financial Officer, as well as the principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions to ensure the highest standard of ethical conduct and fair dealing.

We have also adopted a Code of Business Conduct covering a wide range of business practices and procedures that applies to all of our officers, directors, and employees to help to promote honest and ethical conduct. The Code of Business Conduct covers standards for professional conduct, including, among others, conflicts of interest, insider trading, confidential information, protection and proper use of Company assets, and compliance with all laws and regulations applicable to the Company's business.

These documents will be provided to any person without charge upon request to Ring Energy, Inc., Attention: Mr. William R. Broaddrick, 6555 Lewis Ave., Suite 200, Tulsa, OK, 74136, and are available on the Company's website at www.ringenergy.com.

Board Leadership Structure

The Chairman of the Board is selected by the members of the Board. The positions of Chairman of the Board and Chief Executive Officer are separate. The Board has determined that the current structure is appropriate at this time because it enables Mr. Hoffman to focus on his role as Chief Executive Officer of the Company, while enabling Mr. Rochford, the Chairman of our Board, to continue providing leadership on policy at the Board level. Although the roles of Chief Executive Officer and Chairman are currently separated, the Board has not adopted a formal policy requiring such separation. The Board believes that the right leadership structure on the Board should, among other things, be determined by the needs and circumstances of the Company and the then current membership of the Board, and that the Board should remain adaptable to shaping the leadership structure as those needs and circumstances change.

Board Risk Assessment and Control

The Board considers risk oversight and management to be an integral part of its role. Our risk management program is overseen by our Board and its committees, with support from our management. Our Board utilizes an enterprise-wide approach to oil and gas industry risk management, designed to support the achievement of organizational objectives, including strategic objectives, to improve long-term organizational performance and enhance stockholder value. A fundamental part of risk management is a thorough understanding of the risks the Company faces, understanding of the level of risk appropriate for our Company and the steps needed to manage those risks effectively. The involvement of all members of the Board in setting our business strategy is a key part of their overall responsibilities and, together with management, determines what constitutes an appropriate level of risk for our Company. Our Board believes that its practice of including all members of our management team in our risk assessments allows the Board to more directly and effectively evaluate management capabilities and performance, more effectively and efficiently communicate its concerns and wishes to the entire management team and provides all members of management with a direct communication avenue to the Board.

While our Board has the ultimate oversight responsibility for the risk management process, the committees of our Board also have responsibility for specific risk management activities. In particular, the Audit Committee focuses on financial risk management, including internal controls, and oversees compliance with regulatory requirements. In setting compensation, the Compensation Committee approves compensation programs for the officers and other key employees to encourage an appropriate level of risk-taking behavior consistent with our business strategy and performance.

More information about the Company's corporate governance practices and procedures is available on the Company's website at www.ringenergy.com.

(See “Setting Executive Compensation” below).

This Compensation Discussion and Analysis (1) provides an overview of our compensation policies and programs; (2) explains our compensation objectives, policies and practices with respect to our Named Executive Officers and our Compensation Committee’s rationale in structuring our executive compensation program, which is designed to align the interests of Named Executive Officers with our stockholders, as well as to provide our Named Executive Officers with incentives to achieve the Company’s goals and objectives that will ultimately enhance value to our stockholders; and (3) identifies the elements of compensation for each of the individuals identified in the following table, whom we refer to in this proxy statement as our “Named Executive Officers” for the fiscal year ending December 31, 2016.

As of the end of the last completed fiscal year, the Company had two executive officers other than the PEO and PFO, and this discussion includes the material elements of compensation awarded to, earned by, or paid to such executive officers. This section omits tables and columns if there has been no compensation awarded to, earned by, or paid to any of the Named Executive Officers or directors required to be reported in such table or column in any fiscal year covered by such table.

Objectives and Philosophy of Our Executive Compensation Program

The Company strives to attract, motivate and retain high-quality executives who are willing to accept a lower base compensation in cash and be rewarded with stock options based on performance and the achievement of the goals and objectives of the Company, thereby allowing the Company to better align the interests of its executives with its stockholders. The Company competes for executive talent from a broad range of public companies and private companies primarily using its stock option grants, as its cash compensation relative to its peers is relatively low.

General

Our executive compensation programs are intended to achieve two objectives. The primary objective is to enhance stockholder value. The second objective is to attract, motivate, reward and retain employees, including executive personnel, who contribute to the long-term success of the Company and the enhancement of stockholder value. As described in more detail below, the material elements of our current executive compensation program for Named Executive Officers include three major elements: a base salary, discretionary annual bonuses and discretionary stock option grants.

The Company believes that each element of its executive compensation program helps to achieve one or both of the Company’s compensation objectives outlined above. Our executives’ compensation is based on individual and Company performance and designed to attract, retain and motivate highly qualified executives while creating a strong connection to financial and operational performance and stockholder value, which is exemplified in the mix of compensation that we provide to our Named Executive Officers. In furtherance of our objective to align executive compensation with stockholder value, a significant portion of our Named Executive Officers’ compensation in 2016 was in the form of grants of stock options.

Our executive compensation program is designed to do the following:

- Align the compensation of our Named Executive Officers and other managers with our stockholders' interests and motivate our executive officers to meet the Company's objectives;
- Pay for performance, taking into consideration both the performance of the Company and the individual in determining executive compensation;
- Promote Named Executive Officer accountability by compensating Named Executive Officers for their contributions to the achievement of the Company's objectives (while discouraging excessive risk-taking not in the interest of long term value for our stockholders);
- Attract and retain highly qualified executives with significant industry knowledge and experience by providing them with a fair compensation program that provides financial stability and incentivizes growth in stockholder value.

Our Compensation Committee and Board believe that our executive compensation program provides our executive officers with incentives to meet the Company's goals and objectives, while not encouraging excessive risk taking. Our executive compensation program is consistently aligned with creating value to our stockholders as we have with prior ventures by the founding stockholder.

The table below lists each material element of our executive compensation program and the compensation objective or objectives that it is designed to achieve.

Compensation Element	Compensation Objectives
Base Salary	<ul style="list-style-type: none">· Attract and retain qualified executives with significant industry knowledge, experience and expertise.· Provide stability in compensation through a fixed compensation element that takes into account the Named Executive Officer's skills, experience, expertise, and tenure with the Company.
Bonus Compensation	<ul style="list-style-type: none">· Motivate and reward executives' performance.· Reward achievement of the Company's goals and objectives.· Enhance profitability of the Company and stockholder value.
Equity-Based Compensation – stock options and restricted stock grants	<ul style="list-style-type: none">· Enhance profitability of the Company and stockholder value by aligning long-term incentives with stockholders' long-term interests.· Incentivize achievement of both strategic goals and objectives by providing Named Executive Officers with rewards for their contributions to achieving such goals and objectives.· Promote Named Executive Officer accountability by compensating Named Executive Officers for their contributions to the achievement of the Company's objectives (while discouraging excessive risk-taking).· Promote pay-for-performance and allow our Named Executive Officers to acquire meaningful interests in the Company.· Encourage long-term value creation for stockholders and retention of talented executive officers.

As illustrated by the table above, base salary is primarily intended to attract and retain qualified executives who have significant industry knowledge, experience, and expertise and who are willing to accept relatively low fixed cash compensation and participation in variable compensation fully aligned with the stockholders' interests. This is the element of the Company's current executive compensation program where the value of the benefit in any given year is not wholly dependent on performance. Base salaries are intended to attract and retain qualified executives as well as to provide stability in the Named Executive Officer's compensation and discourage excessive risk-taking. Base salaries are reviewed annually and take into account: experience and retention considerations; past performance; improvement in historical performance; anticipated future potential performance; and other issues specific to the individual executive.

There are specific elements of the current executive compensation program that are designed to reward performance and enhance profitability and stockholder value, and, therefore, the value of these benefits is based on performance. The Company's discretionary annual bonus plan is primarily intended to motivate and reward Named Executive Officers' performance to achieve specific strategies and operating objectives, as well as improved financial performance. The Company also awards stock options and restricted stock grants to promote long-term value creation for stockholders and to retain talented executives for an extended period.

Peer Review, Benchmarking and Compensation Consultant

The Compensation Committee reviews, evaluates and benchmarks the compensation practices of peer companies on a regular basis and has determined that the Company is efficient and is generally more effective than its peer companies in aligning the compensation of its executive officers with the interests of stockholders. The Compensation Committee believes that bonuses and equity compensation should fluctuate with the Company's success in achieving financial, operating and strategic goals. The Committee's philosophy is that the Company should continue to use long-term compensation such as stock options to align stockholders' and executives' interests and should allocate a much greater portion of long-term compensation to the entire executive compensation package. Based on this belief, the Compensation Committee reviews the performance of the Company's executive officers throughout the year to evaluate the performance of each executive officer relative to the performance of the Company and the progress in meeting the Company's goals and objectives.

The Company has not deemed it necessary to hire an outside consultant to assist the Compensation Committee, as compensation paid by its peers is generally available.

Setting Executive Compensation and Evaluating Named Executive Officer Performance

Our executive compensation programs are determined and approved by our Compensation Committee based on a comprehensive evaluation of the Company and individual executive officer's performance, as well as consideration of industry compensation data reviewed by the Compensation Committee. The Compensation Committee takes into consideration the recommendations by our Chairman of the Board and our Chief Executive Officer (as to the compensation of executive officers other than the Chief Executive Officer). None of the Named Executive Officers are members of the Compensation Committee. The Compensation Committee has the direct responsibility and authority to review and approve the Company's goals and objectives relative to the compensation of the Named Executive Officers, and to determine and approve (either as a committee or with the other members of the Company's Board of Directors who qualify as "independent" directors under applicable guidelines adopted by the NYSE MKT, LLC) the compensation of the Named Executive Officers.

For purposes of evaluating performance, our Compensation Committee, in consultation with our management and the Board, sets performance goals and objectives for the Company, regularly assesses progress towards meeting such goals and objectives, and determines the appropriate compensation for each of our Named Executive Officers. The Compensation Committee evaluates progress toward meeting the Company's goals and objectives throughout the year. The Compensation Committee evaluates various factors in determining the appropriate compensation for each of our Named Executive Officers.

Our Compensation Committee considered the following 2016 goals and objectives, among other factors such as industry compensation data and the commodity pricing environment, in determining the compensation of our Named Executive Officers:

PERFORMANCE OBJECTIVES AND GOALS

Objectives	Evaluation/Analysis for 2016
Increase Production	<ul style="list-style-type: none"> · Production increased 18%, from 878,066 BOE in 2016, as compared to production of 743,363 BOE for 2015.
Increase Proved Reserves	<ul style="list-style-type: none"> · Increased our proved reserves 14% to 27.7 million BOE. · PUD reserve estimates increased by 11% to 17.5 million BOE, resulting from development, improved production curves and improved recovery and extension from addition of new horizontal reserves proved up through development.
Improve Operational Efficiency	<ul style="list-style-type: none"> · Oil and gas production costs decreased 16%, on a BOE basis to \$11.24 in 2016 from \$13.40 in 2015. · Drilled 12 wells, including 3 horizontal wells.
Maintain Financial Flexibility and Increase Capital	<ul style="list-style-type: none"> · Maintained a credit facility with a \$60 million borrowing base with no amounts outstanding under the credit facility as of December 31, 2016. · Raised \$139.6 in successful underwritten public offerings of common stock.
Continue focus on safety	<ul style="list-style-type: none"> · Continued to maintain safe operations. · No safety incidents in 2016.

The Compensation Committee reviewed the performance of our Named Executive Officers in conjunction with the Company's performance objectives and goals for 2016. The Compensation Committee also took into consideration other circumstances in determining executive compensation including, without limitation, changes in commodity prices, market conditions, supply and demand, weather conditions, governmental regulation, and other factors. The Compensation Committee determined that, despite volatile commodity prices, the Company exceeded the objectives and goals for 2016 and tied the compensation (as discussed below) to the Company's performance.

Role of Stockholder Say-on-Pay Advisory Vote

In determining 2016 executive compensation, the Compensation Committee considered the outcome of the say-on-pay vote at the last annual meeting. Based on the results of the say-on-pay vote, the Company has continued to focus on ensuring our executive compensation program is designed primarily to align the interests of executives with stockholders and incentivize our management to achieve the Company's objectives and goals. The Company is developing a plan to communicate regularly with its stockholders to gather feedback on the Company's performance and executive compensation program.

In 2016, upon the recommendation of the Compensation Committee, Ring rescinded option awards granted as compensation to its executive officers, employees, and certain directors (other than Messrs. McCabe and Rochford, the members of the Compensation Committee) and re-issued the options due to a precipitous decline in Ring's stock price shortly after the options were granted. The recommendation of the Compensation Committee to rescind and re-issue the options was based on Ring's objective to provide reasonable compensation competitive with its peers and to enable Ring to continue to retain such executives and incentivize them to increase the value of the common stock of the Company. Concerns were raised regarding the rescission and re-issuance of options without stockholder approval, and, to address such concerns, our Board has implemented a policy prohibiting the rescission and re-issuance of options without stockholder approval.

Our Board and Compensation Committee utilizes the "say-on-pay" vote as an additional guide to ensure our executive compensation programs are aligned with the interests of our stockholders. Our Compensation Committee will continue to evaluate the Company's compensation program to ensure competitiveness, the alignment of the Company's executive compensation with stockholders' interests and to meet other compensation objectives.

Executive Compensation Program Elements for 2016

Our Compensation Committee believes that our executive compensation program has played a significant role in our ability to enhance our stockholders with value based upon our continued growth in production and reserves, in addition to our continued commitment to meeting our objectives and goals.

In 2016, the Company continued to grow its production and reserves despite lower and more volatile commodity prices in the oil and gas industry by focusing on operational efficiency. The Company paid off all indebtedness under its credit facility, successfully raised additional capital through underwritten public offerings, and continued its focus on safety in its operations.

- **Significant Production Growth** – We created significant production growth in 2016, despite lower and more volatile commodity prices. Our production increased approximately 18% to 878,066 BOE in 2016, as compared to production of 743,363 BOE for the year ended December 31, 2015.
- **Reserve Growth** – We increased our proved reserves 14% to 27.7 million BOE. As of December 31, 2016, our estimated proved reserves had a pre-tax “PV10” (present value of future net revenues before income taxes discounted at 10%) of approximately \$217.3 million and a Standardized Measure of Discounted Future Net Cash Flows of approximately \$159.8 million.
- **Improved Production Curves and Increase in Proved Undeveloped Reserves (PUDS)** – Our PUD reserve estimate increased to 17.5 million BOE in 2016 from 15.8 million BOE in 2015, resulting from development, improved production curves and improved recovery and extension from the addition of new horizontal reserves proved up through development.
- **Improved Operational Efficiency** – We have improved our operational efficiency through employing technological advancements, which have provided a significant benefit in our continuous drilling program in the lower commodity price environment. As of result of our improved operational efficiency, as of December 31, 2016, we had drilled 195 wells, with 192 being vertical wells and 3 horizontal wells, and re-stimulated 35 existing wells on our Central Basin acreage and had drilled 6 wells and recompleted 6 existing wells on our Delaware Basin acreage. Our aggregate oil and gas production costs decreased on a BOE basis to \$11.24 in 2016 from \$13.40 in 2015.
- **Additional Financial Flexibility for Future Growth and Development** – We increased our financial flexibility for future growth and development by paying down our credit facility and successfully raising additional capital in an underwritten public offering. We have a credit facility in place with a \$60 million borrowing base for borrowings, and, as of December 31, 2016, we had paid all amounts outstanding on our credit facility. We successfully raised \$139.6 million in underwritten public offerings in 2016. Our credit facility and capital raise provide us with additional operating flexibility.
- **Safety and Training** – We continued our strong safety performance in 2016. We had no incidents resulting from our operations in 2016.

Our Compensation Committee assessed each of our executive officers’ performance and contribution to the Company meeting its objectives for 2016. Below is a discussion of each element of the Company’s compensation program, which should be read in conjunction with the “Summary Compensation Table.”

Base Salaries

The Compensation Committee believes base salary is an integral element of executive compensation to provide executive officers with a base level of monthly income. We provide all of our employees, including our Named Executive Officers, with an annual base salary to compensate them for their services to the Company. Similar to most companies within the industry, our policy is to pay Named Executive Officers’ base salaries in cash. Base salary is reviewed annually by the Compensation Committee.

The base salary of each Named Executive Officer is reviewed annually, with the salary of the Chief Executive Officer being established by the Compensation Committee and the salaries of the other executive officers being determined and approved by the Compensation Committee after consideration of recommendations by the Chairman of the Board and Chief Executive Officer. The Compensation Committee analyzes many factors in its evaluation of our Named Executive Officers' base salary, including the experience, skills, contributions and tenure of such officer with the Company and such executive officers' current and future roles, responsibilities and contributions to the Company.

Effective July 1, 2012, the Compensation Committee designated a salary of \$100,000 for Mr. Broaddrick. Effective September 1, 2012, the Compensation Committee recommended an increase of \$25,000 for Mr. Broaddrick.

Mr. Hoffman joined the Company effective January 1, 2013, and the Compensation Committee designated a salary of \$175,000.

Mr. Fowler joined the Company effective January 1, 2013, and the Compensation Committee designated a salary of \$150,000.

Mr. Wilson joined the Company effective January 1, 2013, and the Compensation Committee designated a salary of \$150,000.

The salary of each of our Named Executive Officers is reported in the "Salary" column of the "Summary Compensation Table" for each Named Executive Officer.

Annual Bonuses

The Company's payment of bonuses has been discretionary and is largely based on the recommendations of the Compensation Committee. Cash incentive bonuses are designed to provide our executive officers with an incentive to achieve the Company's business goals and objectives and are tied to the performance of the Company. Cash bonuses have not been, and are not expected to be, a significant portion of the Company's executive compensation package. Cash bonuses are determined for Named Executive Officers based on the Company's performance for the year, the officer's individual performance in the prior year, the officer's expected future contribution to the performance of the Company, and other competitive data on grant values of peer companies.

Cash bonuses were granted to all employees in December 2013. The annual discretionary bonus is reported in the "Bonus" column of the "Summary Compensation Table" for each Named Executive Officer.

Equity-Based Compensation – Options and Restricted Stock Grants

A significant component of our executive compensation program is equity-based compensation, which is determined by our Compensation Committee. It is our policy that the Named Executive Officers' long-term compensation should be directly linked to enhancing stockholders' value. Accordingly, the Compensation Committee grants to the Company's Named Executive Officers equity awards under the Company's long term incentive plan designed to link an increase in stockholder value to compensation. The purpose of granting equity-based compensation is to incentivize and reward the Company's executive officers for the Company's achievement of the objectives and goals and the individual's contribution to meeting such goals and objectives and to encourage continued dedication to the Company by providing executives with meaningful ownership interests in the Company.

The Compensation Committee evaluates the performance of the Company's Named Executive Officers throughout the year and retains discretion on the amount of equity-based compensation granted.

Mr. Broaddrick was granted non-qualified stock options in each year from 2012 through 2016. Messrs. Hoffman, Fowler and Wilson were granted non-qualified stock options in each year from 2013 to 2016.

Stock option grants are valued using the Black-Scholes Model and are calculated as a part of the executive compensation package for the year based on the amount of the requisite service period served. Non-qualified stock options for Named Executive Officers and other key employees generally vest ratably over five years. No restricted stock was granted to any of the Named Executive Officers. The Compensation Committee believes that these awards encourage Named Executive Officers to continue to use their best professional skills and to retain Named Executive Officers for longer terms.

Grants are determined for Named Executive Officers based on his or her performance in the prior year, his or her expected future contribution to the performance of the Company, and other competitive data on grant values of peer companies. Awards may be granted to new key employees or Named Executive Officers on their respective hire dates. Other grant date determinations are made by the Compensation Committee, which are based upon the date the Committee met and proper communication was made to the Named Executive Officer or key employee as defined in the definition of grant date by generally accepted accounting principles. Exercise prices are equal to the value of the Company's stock on the close of business on the determined grant date. The Company has no program or practice to coordinate timing of grants with release of material, nonpublic information.

The grant date fair value as determined under generally accepted accounting principles is shown in the "Summary Compensation Table" below.

Pension Plans, Non-Qualified Deferred Compensation Plans, Change-In-Control Arrangements and Retirement Plans

The Company does not have any pension plans, non-qualified deferred compensation plans or severance, retirement, termination, constructive termination or change in control arrangements for any of its Named Executive Officers for the year ended December 31, 2016.

Other Benefits

Our Named Executive Officers are eligible to participate in all of our employee benefit plans, such as medical, dental, vision, group life, and short and long-term disability, in each case, on the same basis as other employees, subject to applicable laws. We also provide vacation and other paid holidays to all employees, including our Named Executive Officers.

Tax Considerations

Although our Compensation Committee considers the tax and accounting treatment associated with the cash and equity grants it makes, these considerations are not dispositive. Section 162(m) of the Code places a limit of \$1.0 million per person on the amount of compensation that we may deduct in any year with respect to our chief executive officer, chief financial officer and our three most highly compensated executive officers other than the chief executive officer and the chief financial officer. There is an exemption from the \$1.0 million limitation for performance-based compensation that meets certain requirements. Our benefit plans are generally designed to permit compensation to be structured to meet the qualified performance-based compensation exception. To maintain flexibility in compensating Named Executive Officers in a manner designed to promote our Company goals and objectives, our Compensation Committee has not adopted a policy requiring all compensation to be deductible. The Compensation Committee retains the ability to evaluate the performance of our executive officers and to pay appropriate compensation, even if some of it may be non-deductible, to ensure competitive levels of total compensation is paid to certain individuals.

We account for stock-based awards based on their grant date fair value, as determined under FASB ASC Topic 718. In connection with its approval of stock-based awards, the Compensation Committee is cognizant of and sensitive to the impact of such awards on stockholder dilution. The Compensation Committee also endeavors to avoid stock-based awards made subject to a market condition, which may result in an expense that must be marked to market on a quarterly basis. The accounting treatment for stock-based awards does not otherwise impact the Compensation Committee's compensation decisions.

Risk Considerations in our Overall Compensation Program

Our compensation program was designed to focus on meeting the Company's objectives and goals while discouraging management from undue risk-taking. When establishing and reviewing our executive compensation program, the Compensation Committee has considered whether the program encourages unnecessary or excessive risk taking and has concluded that it does not. While behavior that may result in inappropriate risk taking cannot necessarily be prevented by the structure of compensation practices, we believe that our compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on us.

Our compensation program is comprised of both fixed and incentive-based elements. The fixed compensation (i.e., base salary) provides reliable, foreseeable income that mitigates the focus of our employees on our immediate financial performance or our stock price, encouraging employees to make decisions in our best long-term interests. The incentive components are designed to be sensitive to our goals and objectives, performance and stock price. In combination, we believe that our compensation structure does not encourage our officers and employees to take unnecessary or excessive risks in performing their duties.

Moreover, with limited exceptions, our Compensation Committee retains discretion to impose additional conditions and adjust compensation pursuant to our clawback policy as well as for quality of performance and adherence to the Company's values. The stock options that the Company has granted to its executive officers have a five year vesting period, which further mitigates risk in the event any executive officer departs or is terminated and his options have not vested. The Board may seek reimbursement from an executive officer if it determines that the officer engaged in conduct that was detrimental to the Company and resulted in a material inaccuracy in either our financial statements or in performance metrics that affected the officer's compensation. If the Compensation Committee or the Board determines that an officer engaged in fraudulent misconduct, it will seek such reimbursement. In cases of misconduct by an executive officer, the Board has discretion to take a range of actions to remedy the misconduct and prevent its recurrence, including terminating the individual's employment.

In conclusion, we believe that our compensation policies and practices for all employees, including executive officers, do not create risks that are reasonably likely to have a material adverse effect on our Company.

The following table provides information regarding options exercised by Named Executive Officers during 2014 and 2015. There were no option exercises by Named Executive Officers during 2016.

The Company uses the Black-Scholes option pricing model to calculate the fair-value of each option grant. The expected volatility is based on the historical price volatility of the Company's common stock. We elected to use the simplified method for estimating the expected term as allowed by generally accepted accounting principles for options granted during the years ended December 31, 2016, 2015 and 2014. Under the simplified method, the expected term is equal to the midpoint between the vesting period and the contractual term of the stock option. The risk-free interest rate represents the U.S. Treasury bill rate for the expected life of the related stock options. The dividend yield represents the Company's anticipated cash dividend over the expected life of the stock options. The following are the Black-Scholes weighted-average assumptions used for options granted during the periods ended December 31, 2016, 2015 and 2014:

	Risk free interest rate	Expected life (years)	Dividend yield	Volatility
April 11, 2014	1.58%	6.5	-	114%
September 25, 2014	1.75%	6.5	-	108%
October 13, 2014	1.45%	6.5	-	107%
November 18, 2014	1.66%	6.5	-	106%
December 1, 2014	1.52%	6.5	-	108%
April 1, 2015	1.32%	6.5	-	103%
December 9, 2015	1.64%	6.5	-	100%
January 13, 2016	1.51%	6.5	-	100%
May 3, 2016	1.25%	6.5	-	99%
December 13, 2016	1.92%	6.5	-	96%

As of December 31, 2016, there was \$7,246,547 of unrecognized compensation cost related to stock options that will be recognized over a weighted average period of 2.8 years. The aggregate intrinsic value of options vested and expected to vest at December 31, 2016 was \$23,872,914. The aggregate intrinsic value of options exercisable at December 31, 2016 was \$15,477,634. The year-end intrinsic values are based on a December 31, 2016 closing price of \$12.99.

Options exercised of 26,500 in 2016, 65,000 in 2015 and 154,000 in 2014 had an aggregate intrinsic value on the date of exercise of \$65,089, \$476,642 and \$2,159,330, respectively.

Long Term Incentive Plan

The Ring Energy, Inc. Long Term Incentive Plan (the "*Plan*") was in existence with Stanford Energy, Inc. ("*Stanford*") and was adopted by the Board on June 27, 2012, and assumed by the Company upon the acquisition of Stanford. The Plan was also approved by vote of a majority of stockholders on January 22, 2013. The following is a summary of the material terms of the Plan.

Shares Available

Our Plan currently authorizes 5,000,000 shares of our common stock for issuance under the Plan. If any shares of common stock subject to an Award are forfeited or if any Award based on shares of common stock is otherwise terminated without issuance of such shares of common stock or other consideration in lieu of such shares of common stock, the shares of common stock subject to such Award shall to the extent of such forfeiture or termination, again be available for Awards under the Plan if no participant shall have received any benefits of ownership in respect thereof. The shares to be delivered under the Plan shall be made available from (a) authorized but unissued shares of common stock, (b) common stock held in the treasury of the Company, or (c) previously issued shares of common stock reacquired by the Company, including shares purchased on the open market, in each situation as the Board of Directors or the Compensation Committee may determine from time to time at its sole option.

Administration

The Committee shall administer the Plan with respect to all eligible individuals or may delegate all or part of its duties under the Plan to a subcommittee or any executive officer of the Company, subject in each case to such conditions and limitations as the Board of Directors may establish. Under the Plan, "Committee" can be either the Board of Directors or a committee approved by the Board of Directors.

Eligibility

Awards may be granted pursuant to the Plan only to persons who are eligible individuals at the time of the grant thereof or in connection with the severance or retirement of Eligible Individuals. Under the Plan, "Eligible Individuals" means (a) employees, (b) non-employee Directors and (c) any other person that the Committee designates as eligible for an Award (other than for Incentive Options) because the Person performs bona fide consulting or advisory services for the Company or any of its subsidiaries (other than services in connection with the offer or sale of securities in a capital raising transaction).

Stock Options

Under the Plan, the plan administrator is authorized to grant stock options. Stock options may be either designated as non-qualified stock options or incentive stock options. Incentive stock options, which are intended to meet the requirements of Section 422 of the Code such that a participant can receive potentially favorable tax treatment, may only be granted to employees. Therefore, any stock option granted to consultants and non-employee directors are non-qualified stock options.

Options granted under the Plan become exercisable at such times as may be specified by the plan administrator. In general, options granted to participants become exercisable in five equal annual installments, subject to the optionee's continued employment or service with our Company. However, the aggregate value (determined as of the grant date) of the shares subject to incentive stock options that may become exercisable by a participant in any year may not exceed \$100,000.

Each option will be exercisable on such date or dates, during such period, and for such number of shares of common stock as shall be determined by the plan administrator on the day on which such stock option is granted and set forth in the option agreement with respect to such stock option; provided, however the maximum term of options granted under the Plan is ten years.

Restricted Stock

Under the Plan, the plan administrator is also authorized to make awards of restricted stock. Before the end of a restricted period and/or lapse of other restrictions established by the plan administrator, shares received as restricted stock will contain a legend restricting their transfer, and may be forfeited in the event of termination of employment or upon the failure to achieve other conditions set forth in the award agreement.

An award of restricted stock will be evidenced by a written agreement between us and the participant. The award agreement will specify the number of shares of common stock subject to the award, the nature and/or length of the restrictions, the conditions that will result in the automatic and complete forfeiture of the shares and the time and manner in which the restrictions will lapse, subject to the participant's continued employment by us, and any other terms and conditions the plan administrator imposes consistent with the provisions of the Plan. Upon the lapse of the restrictions, any legends on the shares of common stock subject to the award will be re-issued to the participant without such legend.

The plan administrator may impose such restrictions or conditions to the vesting of such shares as it, in its absolute discretion, deems appropriate. Prior to the vesting of a share of restricted stock granted under the Plan, no transfer of a participant's rights to such share, whether voluntary or involuntary, by operation of law or otherwise, will vest the transferee with any interest, or right in, or with respect to, such share, but immediately upon any attempt to transfer such rights, such share, and all the rights related thereto, will be forfeited by the participant and the transfer will be of no force or effect; provided, however, that the plan administrator may, in its sole and absolute discretion, vest in the participant all or any portion of shares of restricted stock which would otherwise be forfeited.

Fair Market Value

Under the Plan, "Fair Market Value" means, for a particular day, the value determined in good faith by the plan administrator, which determination shall be conclusive for all purposes of the Plan. For purposes of valuing incentive options, the fair market value of stock: (i) shall be determined without regard to any restriction other than one that, by its terms, will never lapse; and (ii) will be determined as of the time the option with respect to such stock is granted.

Transferability Restrictions

Notwithstanding any limitation on a holder's right to transfer an award, the plan administrator may (in its sole discretion) permit a holder to transfer an award, or may cause the Company to grant an award that otherwise would be granted to an eligible individual, in any of the following circumstances: (a) pursuant to a qualified domestic relations order, (b) to a trust established for the benefit of the eligible individual or one or more of the children, grandchildren or spouse of the eligible individual; (c) to a limited partnership or limited liability company in which all the interests are held by the eligible individual and that person's children, grandchildren or spouse; or (d) to another person in circumstances that the plan administrator believes will result in the award continuing to provide an incentive for the eligible individual to remain in the service of the Company or its subsidiaries and apply his or her best efforts for the benefit of the Company or its subsidiaries. If the plan administrator determines to allow such transfers or issuances of awards, any holder or eligible individual desiring such transfers or issuances shall make application therefore in the manner and time that the plan administrator specifies and shall comply with such other requirements as the plan administrator may require to assure compliance with all applicable laws, including securities laws, and to assure fulfillment of the purposes of the Plan. The plan administrator shall not authorize any such transfer or issuance if it may not be made in compliance with all applicable federal and state securities laws. The granting of permission for such an issuance or transfer shall not obligate the Company to register the shares of stock to be issued under the applicable award.

Termination and Amendments to the Plan

The Board of Directors may (insofar as permitted by law and applicable regulations), with respect to any shares which, at the time, are not subject to awards, suspend or discontinue the Plan or revise or amend it in any respect whatsoever, and may amend any provision of the Plan or any award agreement to make the Plan or the award agreement, or both, comply with Section 16(b) of the Exchange Act and the exemptions therefrom, the Code, the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), the regulations promulgated under the Code or ERISA, or any other law, rule or regulation that may affect the Plan. The Board of Directors may also amend, modify, suspend or terminate the Plan for the purpose of meeting or addressing any changes in other legal requirements applicable to the Company or the Plan or for any other purpose permitted by law. The Plan may not be amended without the consent of the holders of a majority of the shares of Common Stock then outstanding to increase materially the aggregate number of shares of stock that may be issued under the Plan except for certain adjustments.

Our Board and Compensation Committee retain discretion, with respect to shares not yet subject to awards, to impose a "second trigger" or other conditions in any future awards agreements in various circumstances, such as when an employees' employment is not terminated upon a change in control.

Director Compensation

All directors receive a monthly stipend of \$2,000. In 2016, each outside director also received 50,000 stock options with an exercise price of \$11.75 per share as an annual bonus. Mr. Rochford received an additional 100,000 stock options with an exercise price of \$11.75 per share as additional compensation as Chairman. Additionally, as referenced below, Messrs. Fowler, Hoffman, Woodrum and Petrelli received 25,000 stock options with an exercise price of \$5.25 per share as part of a decision to rescind options granted in December 2015. Director compensation to Messrs. Fowler and Hoffman is included here but is also included in the executive compensation schedule above. No director receives a salary as a director.

(8) On December 9, 2015, Ring issued option awards to its Named Executive Officers and directors. On January 13, 2016, upon the recommendation of the Compensation Committee, Ring rescinded the option awards granted to its employees and directors (other than Messrs. McCabe and Rochford, who are the members of the Compensation Committee) as the result of a significant decline in the stock price and re-issued the option awards as of that date to meet the goals and objectives of the Company's equity based compensation program. The amounts shown as Option Awards includes the additional fair value of the new options over the original grant.

Compensation Committee Report

Among the duties imposed on our Compensation Committee under its charter, is the direct responsibility and authority to review and approve the Company's goals and objectives relevant to the compensation of the Company's Chief Executive Officer and other executive officers, to evaluate the performance of such officers in accordance with the policies and principles established by the Compensation Committee and to determine and approve, either as a Committee, or (as directed by the Board) with the other "independent" Board members (as defined by the NYSE MKT listing standards), the compensation level of the Chief Executive Officer and the other executive officers. During 2016, the Compensation Committee was comprised of the two non-employee Directors named at the end of this report each of whom is "independent" as defined by the NYSE MKT listing standards.

The Compensation Committee has reviewed and discussed with management the disclosures contained in the Compensation Discussion and Analysis, as required by Item 402(b) of Regulation S-K. Based upon this review and our discussions, the Compensation Committee recommended to its Board of Directors that the Compensation Discussion and Analysis section be included in this Proxy Statement and incorporated by reference in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2016.

Compensation Committee of the Board of Directors
Lloyd T. Rochford (Chair)
Stanley McCabe

Compensation Committee Interlocks and Insider Participation

As of December 31, 2016, the Compensation Committee was comprised of two directors, Messrs. Rochford and McCabe, with Mr. Rochford acting as the chairman. Messrs. Rochford and McCabe are currently serving as the members of the Compensation Committee. Neither of our directors who currently serve as members of our Compensation Committee is, or has at any time in the past been, an officer or employee of the Company or any of its subsidiaries. The office space being leased by the Company in Tulsa, Oklahoma, is owned by Arenaco, LLC, a company that is owned by Mr. Rochford, Chairman of the Board of the Company, and Mr. McCabe, a director of the Company. During the years ended December 31, 2014 through December 31, 2016, the Company paid an aggregate of \$180,000 to Arenaco, LLC, for the lease of the office space.

None of our executive officers serves, or has served, during the last completed fiscal year, on the compensation committee or board of directors of any other company that has one or more executive officers serving on our Compensation Committee or Board.

**TRANSACTIONS WITH RELATED PERSONS, PROMOTERS
AND CERTAIN CONTROL PERSONS**

Certain Relationships and Related Transactions

The office space being leased by the Company in Tulsa, Oklahoma, is owned by Arenaco, LLC, a company that is owned by Mr. Rochford, Chairman of the Board, and Mr. McCabe, a director of the Company. During the years ended December 31, 2016, 2015, and 2014, the Company paid an aggregate of \$180,000 to Arenaco, LLC, for the lease of the office space.

The Audit Committee reviews any related party transactions. Annually, each Board member is required to submit an Independence Certificate, disclosing any affiliations or relationships for evaluation as related party transactions.

Review, Approval or Ratification of Transactions with Related Parties

The Board reviews and approves all relationships and transactions in which it and its directors, director nominees and executive officers and their immediate family members, as well as holders of more than 5% of any class of its voting securities and their family members, have a direct or indirect material interest. In approving or rejecting such proposed relationships and transactions, the Board shall consider the relevant facts and circumstances available and deemed relevant to this determination. In each case the standard applied in approving the transaction is the best interests of the Company without regard to the interests of the individual officer or director involved in the transaction. These procedures for reviewing and approving conflict of interest transactions are based on the Company's past practice and are not contained in any written policy.

Director Independence

The standards relied upon by the Board in determining whether a director is "independent" are those set forth in the rules of the NYSE MKT. The NYSE MKT generally defines the term "independent director" as a person other than an executive officer or employee of a company, who does not have a relationship with the company that would interfere with the director's exercise of independent judgment in carrying out the responsibilities of a director. Because the Board believes it is not possible to anticipate or provide for all circumstances that might give rise to conflicts of interest or that might bear on the materiality of a relationship between a director and the Company, the Board has not established specific objective criteria, apart from the criteria set forth in the NYSE MKT rules, to determine "independence". In addition to the NYSE MKT criteria, in making the determination of "independence", the Board considers such other matters including, without limitation, (i) the business and non-business relationships that each independent director has or may have had with the Company and its other Directors and executive officers, (ii) the stock ownership in the Company held by each such Director, (iii) the existence of any familial relationships with any executive officer or Director of the Company, and (iv) any other relevant factors which could cause any such Director to not exercise his independent judgment.

Consistent with these standards, our Board has determined that Messrs. Woodrum and Petrelli are each "independent" directors within the meaning the NYSE MKT definition of independent director set forth in the Company Guide, Part 8, Section 803(A). The Board has also determined that Messrs. Rochford and McCabe are "independent" directors under the same definitions.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file initial reports of ownership and reports of changes in ownership with the SEC. Such persons are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file.

Based solely upon a review of Section 16(a) reports furnished to us for our most recent fiscal year, we know of no director, officer or beneficial owner of more than ten percent of our Common Stock who failed to file on a timely basis reports of beneficial ownership of the our Common Stock as required by Section 16(a) of the Securities Exchange Act of 1934, as amended.

**PROPOSAL 2: NON-BINDING, ADVISORY VOTE TO APPROVE
NAMED EXECUTIVE OFFICER COMPENSATION**

The stockholders of the Company are entitled to vote at the Annual Meeting to approve the compensation of the Company's Named Executive Officers, as disclosed in this proxy statement. The stockholder vote on executive compensation is an advisory vote only, and it is not binding on the Company, the Board or the Compensation Committee. Although the vote is non-binding, the Compensation Committee and the Board value the opinions of the stockholders and will consider the outcome of the vote when making future compensation decisions.

As described under the heading "Compensation Discussion and Analysis," our compensation policies and programs support our key business objectives of creating value for, and promoting the interests of, our stockholders. In order to align the interests of our Named Executive Officers with those of our stockholders, we believe that each Named Executive Officer's total annual cash compensation should vary with the performance of the Company and that long-term incentives awarded to Named Executive Officers should be aligned with the interests of the Company's stockholders. The Company strives to attract, motivate and retain high-quality executives who are willing to accept a lower base compensation in cash and be rewarded with stock options based on performance and the achievement of the goals and objectives of the Company, thereby allowing the Company to better align the interests of its executives with its stockholders.

Specifically, the primary objectives of our compensation policies are as follows:

- Align the compensation of our Named Executive Officers and other managers with our stockholders' interests and motivate our executive officers to meet the Company's objectives;
- Pay for performance, taking into consideration both the performance of the Company and the individual in determining executive compensation;
- Promote Named Executive Officer accountability by compensating Named Executive Officers for their contributions to the achievement of the Company's objectives (while discouraging excessive risk-taking not in the interest of long term value for our stockholders); and
- Attract and retain highly qualified executives with significant industry knowledge and experience by providing them with a fair compensation program that provides financial stability and incentivizes growth in stockholder value.

The vote on this resolution is not intended to address any specific element of compensation, but rather relates to the overall compensation of our Named Executive Officers, as described in this proxy statement in accordance with the SEC's compensation disclosure rules. To the extent there is any significant vote against our Named Executive Officer compensation as disclosed in this proxy statement, the Board and the Compensation Committee will evaluate whether any actions are necessary to address the concerns of the stockholders.

BOARD RECOMMENDATION ON PROPOSAL

The Board unanimously recommends a vote **FOR** the approval of the compensation paid to our Named Executive Officers as set forth in this proxy statement.

AUDIT COMMITTEE REPORT

The Audit Committee is comprised of two independent, non-employee directors. The Board has made a determination that the members of the Audit Committee satisfy the NYSE MKT listing standards. The Board has determined that one of the members of the Audit Committee, Mr. Woodrum, is an “audit committee financial expert” as defined by the rules of the SEC.

The Audit Committee’s responsibilities are set forth in the Audit Committee Charter, as may be amended from time to time by the Board. The principal functions of the Audit Committee are to assist the Board in monitoring the integrity of our financial statements, the independent auditor’s qualifications and independence, the performance of our independent auditors and our compliance with legal and regulatory requirements. The Audit Committee has the sole authority to retain and terminate our independent auditors and to approve the compensation paid to our independent auditors. The Audit Committee is also responsible for overseeing our internal audit function. This is a report on the Audit Committee’s activities relating to 2016.

Review of Audited Financial Statements with Management

The Audit Committee has reviewed and discussed the Company’s audited financial statements and management’s discussion and analysis of the Company’s financial condition and results of operation with management of the Company for the fiscal year ended December 31, 2016.

Review of Financial Statements and Other Matters with Independent Registered Public Accounting Firm

The Audit Committee discussed with Eide Bailly, the Company’s independent registered public accounting firm, the matters required to be discussed as described in Statement on Auditing Standards (“SAS”) No. 61 - Communication with Audit Committees. The Audit Committee has received and reviewed the written disclosures and the letter from Eide Bailly required by applicable Public Company Accounting Oversight Board requirements regarding the firm’s communications with the Audit Committee concerning independence and has discussed with Eide Bailly the independent registered public accounting firm’s independence. These discussions included a review of all audit and non-audit services (including tax services) provided by Eide Bailly to the Company. The Audit Committee has also considered whether the provision of non-audit services to the Company by Eide Bailly LLP is compatible with maintaining its independence.

Recommendation that Financial Statements be Included in the Annual Report

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements referred to above be included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2016, for filing with the SEC.

THE AUDIT COMMITTEE,

Clayton E. Woodrum (Chairman)
Anthony B. Petrelli

PRINCIPAL INDEPENDENT PUBLIC ACCOUNTANT FEES AND SERVICES PAID IN 2015 AND 2014

The Audit Committee selected Eide Bailly as its independent registered public accounting firm for the fiscal years ended December 31, 2015 and 2016. The Audit Committee has adopted a policy that requires advance approval of all audit, audit-related, tax services and other services performed by the independent auditor.

Fees and Independence

Audit Fees. Eide Bailly billed the Company an aggregate of \$105,000 for professional services rendered for the review of the Company's financial statements included in its Quarterly Reports on Form 10-Q for 2016 and the audit of the Company's financial statements for the year ended December 31, 2016, and an aggregate of \$105,000 for professional services rendered for the review of the Company's financial statements included in its Quarterly Reports on Form 10-Q for 2015 and the audit of the Company's financial statements for the year ended December 31, 2015.

Audit Related Fees. Eide Bailly billed the Company \$19,100 and \$21,325, respectively, for the years ended December 31, 2016 and 2015, for services related to the Company's filing of registration statements and \$27,467 in 2015 for property audits in relation to an acquisition.

Tax Fees. Eide Bailly billed the Company \$18,250 and \$10,000, respectively, for professional services rendered for tax compliance, tax advice and tax planning for the years ended December 31, 2016 and 2015.

All Other Fees. No other fees were billed by Eide Bailly to the Company during 2016 and 2015.

The Audit Committee of the Board of Directors has determined that the provision of services by Eide Bailly described above is compatible with maintaining Eide Bailly's independence as the Company's principal accountant. The policy of the Audit Committee and our Board, as applicable, is to pre-approve all services by our independent registered public accounting firm. The Audit Committee has adopted a pre-approval policy that provides guidelines for the audit, audit-related, tax and other non-audit services that may be provided by our independent registered public accounting firm. The policy (a) identifies the guiding principles that must be considered by the Audit Committee in approving services to ensure that the independent registered public accounting firm's independence is not impaired; (b) describes the audit, audit-related, tax and other services that may be provided and the non-audit services that are prohibited; and (c) sets forth the pre-approval requirements for all permitted services. Under the policy, all services to be provided by our independent registered public accounting firm must be pre-approved by the Audit Committee.

PROPOSAL 3: RATIFICATION OF THE APPOINTMENT OF EIDE BAILLY LLP

With authority granted by our Board, the Audit Committee has appointed Eide Bailly LLP as our independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ending December 31, 2017. Although stockholder ratification of the selection of Eide Bailly LLP is not required, the Audit Committee and our Board consider it desirable for our stockholders to vote upon this selection. Even if the selection is ratified, the Audit Committee may, in its discretion, direct the appointment of a different independent registered public accounting firm at any time during the year if it believes that such a change would be in the best interest of our stockholders and us.

Representatives from Eide Bailly LLP may be present at the Annual Meeting. If present, these representatives will have the opportunity to make a statement if they desire to do so, and would be available to respond to appropriate questions.

BOARD RECOMMENDATION ON PROPOSAL

The Board unanimously recommends a vote **FOR** ratification of the appointment of Eide Bailly LLP as Ring Energy, Inc.'s independent auditor for the 2017 fiscal year. The management proxy holder will vote all properly submitted proxies **FOR** ratification unless properly instructed otherwise.

**STOCKHOLDER PROPOSALS AND DIRECTOR NOMINATIONS
FOR THE 2018 ANNUAL MEETING**

Pursuant to the rules promulgated by the SEC, stockholders interested in submitting a proposal for inclusion in our proxy materials and for presentation at the 2018 Annual Meeting of Stockholders may do so by following the procedures set forth in Rule 14a-8 under the Exchange Act.

In addition to the requirements of Rule 14a-8, and as more specifically provided for in our bylaws, in order for a nomination of persons for election to our Board or a proposal of business to be properly brought before our annual meeting of stockholders, it must be either specified in the notice of the meeting given by or at the direction of our Board or by a stockholder entitled to vote and who complies with the notice procedures set forth in our bylaws. It is anticipated that the 2018 Annual Meeting of Stockholders will be held in May or June 2018. A stockholder making a nomination for election to our Board or a proposal of business for the 2018 Annual Meeting of Stockholders must deliver proper notice to us no later than the close of business on February 26, 2018.

For each individual that a stockholder proposes to nominate as a director, the stockholder's written notice to us must include the candidate's name, contact information, biographical information and qualifications. The request must also include the potential candidate's written consent to being named in our proxy statement as a nominee and to serving as a director if nominated and elected. From time to time, the Nominating and Corporate Governance Committee may request additional information from the nominee or the stockholder. For additional information about the notice requirements for director nominations, see our bylaws. For any other business that a stockholder desires to bring before an annual meeting, the stockholder notice must provide a brief description of such business, the reasons for conducting the business and any material interest in the business of the stockholder and any beneficial owner on whose behalf the stockholder has made the proposal. For additional information about the notice requirements for other stockholder business, see our bylaws.

Under Rule 14a-4(c) of the Exchange Act, our Board may exercise discretionary voting authority under proxies solicited by it with respect to any matter properly presented by a stockholder at the 2018 Annual Meeting of Stockholders that the stockholder does not seek to have included in our proxy statement if (except as described in the following sentence) the proxy statement discloses the nature of the matter and how our Board intends to exercise its discretion to vote on the matter, unless we are notified of the proposal on or before February 26, 2018, such notice being delivered or mailed to our Secretary, and the stockholder satisfies the other requirements of Rule 14a-4(c)(2). If we first receive notice of the matter after February 26, 2018, and the matter nonetheless is permitted to be presented at the 2018 Annual Meeting of Stockholders, our Board may exercise discretionary voting authority with respect to the matter without including any discussion of the matter in the proxy statement for the meeting. We reserve the right to reject, rule out of order or take other appropriate action with respect to any proposal that does not comply with the requirements described above and other applicable requirements.

OTHER BUSINESS

Our Board knows of no matter other than those described herein that will be presented for consideration at the Annual Meeting. However, should any other matters properly come before the Meeting or any postponements or adjournments thereof, it is the intention of the person(s) named in the accompanying proxy to vote in accordance with their best judgment in the interest of our Company and our stockholders.
